Think about copyright issues NOW, long before you submit

- **Make sure that your thesis or dissertation does not violate another author's copyright.** Using graphs, large portions of text or music, images, pictures, and tables where the copyright is held by someone other than you may be a copyright violation.
- From the [ETD Release Form](#) required for graduation:
COPYRIGHT: You affirm that the content of your submission does not, to the best of your knowledge, infringe upon anyone's copyright through, but not limited to, plagiarism, unapproved reproduction of materials or improper citation.
I understand and agree:
 - Document does not contain copyrighted materials and includes proper citations.
 - Material usage falls under fair use (legally binding, keep fair use checklist on file)
 - Copyrighted material used with owner's permission (provide documentation of permissions)

Copyright: Protecting your work

Copyright is a way to protect your work; you already have copyright to your work without registering it with the U.S. Copyright Office, BUT...

- Registering your work allows you to seek statutory damages from those that use your work without permission
- Two ways to register your work:
 - [United States Copyright Office](#) (fee: \$35 for online submission)
 - ProQuest will do it for you for a fee during submission. (fee: \$55)

5

Electronic Submissions

- Improves visibility and accessibility of your work
- All submitted ETDs are simultaneously and automatically made accessible in two ways:
 - [ProQuest Dissertations and Theses](#) – available only by subscription
 - KU theses and dissertations in ProQuest are easily found in [Dissertations & Theses @ University of Kansas](#) (Lawrence campus) and [Current Research @ KU](#) (KUMC campus)—both available only by subscription
 - [KU ScholarWorks](#), KU's public, open digital archive
- Ability to include supplemental data and media like audio and video, as well as any permission forms

6

Electronic Access

KU's copy	ProQuest's copy
<ul style="list-style-type: none"> • Open Access: Made available through KU ScholarWorks • No additional cost • Required for graduation • Public access to your work 	<ul style="list-style-type: none"> • Generally access to ProQuest's copy is subscription-only • For additional fee (\$95) ProQuest's Open Access option offers: <ul style="list-style-type: none"> • Public access to your work (but duplicates already open version in KUSW) • No reason to choose this.
